MMS / EQUIPMENT BUYING GUIDE

Rent or buy: price the full gap

Temporary equipment should fill a defined capability gap for a defined period. Compare usable packages and complete costs rather than daily rates alone.

START HERE

State the required configuration, usable start date and event ending the need. Compare rental, confirmed loaner, approved internal capacity and purchase.

PAY MORE WHEN

A better-supported or more complete package can meet the actual deadline and clinical requirement that a cheaper offer cannot demonstrate.

WATCH THE BUDGET

Price the planned interval and plausible extensions. Include transport, setup, accessories, training, minimum commitments, return charges and the exact billing stop event.

CHECK THE SUPPORT

Confirm availability, maintenance, replacement after failure and return obligations. Assign an owner to approve extensions and obtain evidence that billing has ended.

THREE QUESTIONS FOR THE SUPPLIER

1. Which exact package is available for our dates and destination?

2. What starts and stops billing, and which extra charges apply?

3. What would the complete cost be if the need lasts longer?
